

**FOR IMMEDIATE RELEASE**

**ROOMLINX TO INSTALL BROADBAND INTERNET CONECTIVITY  
TO OVER 1000 GUEST ROOMS AS WELL AS MEETING ROOMS AND PUBLIC AREAS  
FOR AFFINIA HOSPITALITY**

**NEW YORK, NY (November 2003)** Affinia Hospitality, New York's largest all-suite hotel company has chosen RoomLinX Inc. to install and support both their wired and wireless high-speed Internet networks.

This distinctive collection of luxury and business suite hotels will be offering RoomLinX high-speed networks in six of their nine properties early in 2004. Five of the six properties will be Wi-Fi throughout. Guests at two of the Manhattan properties are already accessing the Internet at high-speed from the comfort of their rooms.

Affinia Hospitality demonstrates their continued focus of satisfying their guests' needs and upholding the company's reputation for superior service by offering broadband Internet connectivity throughout their properties. In addition to high-speed Internet access in guest rooms, Affinia offers Wi-Fi access throughout the public areas granting the guests added flexibility to stay connected and productive while on the road.

RoomLinX has a proven track record of installing a large number of rooms and operating back-end systems designed with flexibility to support and monitor all of Affinia's locations. A centralized Network Operations Center operates 24 hours a day to monitor potential network problems so that they can be addressed without affecting guest accessibility.
